Here is Some Good News!

Although the Postage Rates will increase slightly, the **USPS** still allows you to mail Postcards all the way up to the 6x9 size, at the same Presorted Postal Rate as the Standard 4x6 Postcard. This allows you to increase the content of your promotional marketing message, product offer, notification, event reminder, etc. This gives you the flexibility of a much wider range of marketing options, yet all for the same presorted postage rate as the much smaller standard size postcards.

At A+ Letter Service, we can help you take advantage of the changes in the new postcard size guidelines, by helping you design an effective Direct Mail marketing piece, which allows you more space to get your message read and increase your response rates!
